

## Mid/Senior Frontend Engineer (React/React Native)

Tong Hua Holding Public Company Limited

Sampantawong

THB35,000 - 90,000 /month

Posted on 26-Apr-22

### Job Highlights

- Advanced Web3 Apps with React and/or React Native
- Have a passion for UX/UI
- Creative Problem-Solving and Lifelong Learning

### Job Description

#### What We Are Looking For:

We are looking for a trustworthy, curious, sharp, and proactive full-time Senior Frontend Engineer to join our team in realizing our Web3 vision — “A decentralized interlinked semantic data structured in a way that facilitates both human and artificial intelligence, which will be built on a more decentral verifiable, and secure internet. Users will be given control over their data, distribution channels, and consumption channels. Machines will be able to our second brain (a.k.a personalized intelligent agent) to facilitate our lives.”

#### What You'll Do:

- Design and build advanced applications using React and/or React Native
- Work on bug fixing and improving React-based applications performance.
- Continuously discover, evaluate, and implement new technologies to maximize development efficiency.
- Unit-test code for robustness, including edge cases, usability, and general reliability.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Work with outside data sources and APIs

#### Basic Requirements:

- Bachelor's Degree in Computer Science, Software Engineering, IT or related.
- 2+ years of experience in React & React Native
- Great understanding of React Component Lifecycle and Hooks
- Proficient in TypeScript and ES6
- Have experience creating complex custom UIs (e.g., media players, draggables), animations and screen transitions.
- Have experience with performance, reliability, and stability optimization
- Have a passion for UX/UI
- Ability to learn and adapt to new tools and technologies
- Ability to lead and complete projects independently, as well as work in a team
- Critical thinker and problem-solving skills
- Unwavering curiosity
- Love playing with cutting-edge technology

#### Nice-to-haves:

- Experience with client-side/local storage and mobile databases
- Experience with TailwindCSS or other Utility-First CSS Frameworks
- Experience with Desktop Application and Browser Extension Development
- Experience with GraphQL
- Experience with React-Spring or other animation libraries
- Interested in or have experience with web3 / decentralized technologies (e.g., IPFS, LIBP2P, blockchain, DAG, etc.)

- Have published an app to Apple App Store or Google Play store

## Company Overview

### About Us

Rooted in 1960, Tong Hua Holding Public Company Limited is a diversified Thai holding company active in Media, Technology, and Finance — Tong Hua Daily News, Tong Hua Media (Decentralized Media), Tong Hua Labs (Web3 / Blockchain R&D Lab), Tong Hua Asset, Tong Hua Capital and Tong Hua Asset Management. It was listed on the Stock Exchange of Thailand in 1991.

We are located on the historic Charoenkrung road in Bangkok, Thailand — The first modern road built in Thailand.

### Why Us?

- We value everyone's opinions and encourage our teammates to challenge the status quo and collaborate to build innovative solutions.
- We value initiative and learning. All employees have a generous personal budget to support their continuous learning (e.g., attend conferences/workshops and access paid resources of your choosing).
- Performance Bonus & Incentives to motivate employees to work towards the same goal.
- Flexible Working Hours & Casual Dress Code.
- We host company retreats because bringing the team together is something we value a lot
- We love playing and experimenting with cutting-edge technology and hope you do too!
